

Stripe integration with TELUS Health Connect

Billing is now as simple as a tap. Stripe's integration within the CHR ecosystem offers seamless payment solutions that automate administrative tasks, letting you focus on patient care.

Flexible payment options

Accept payments both in-clinic or via the app with Stripe's e-terminal and integrated POS system, automating collections for a seamless and convenient payment experience. Patient credit card information can also be securely saved on file and encrypted.

Reconcile payments all in one place

Payments within CHR are simplified with Stripe. All payments are accessible in CHR and your Stripe dashboard, consolidating all payments in one location. Say goodbye to the days of reconciling different payment providers.

Ready to get started? Contact us to ensure your system is ready and will support you through the simple integration process.
